SUMMARY

Senior Android Developer with 5+ years building production Kotlin/Java apps across healthcare, hospitality, social media, and sales domains. Sole Android engineer on Expiwell — an international ESM/EMA research platform — maintaining a 99.85% crash-free rate across 10,000+ active installs. Strong with Jetpack Compose, MVVM/Clean Architecture, Hilt, Coroutines, and Firebase, with a proven record of delivering end-to-end features in remote, cross-timezone Agile teams.

SKILLS

Languages & Frameworks: Kotlin, Java, Jetpack Compose, XML Layouts, View Binding, Android SDK

Architecture & Patterns: MVVM, MVC, Clean Architecture, Reactive Programming (RxJava 2, RxKotlin)

Jetpack & Libraries: Room, Hilt/Dagger, Coroutines/Flow, WorkManager, Paging, LiveData, ViewModel, Navigation Component

Networking & APIs: Retrofit, OkHttp, RESTful APIs, Firebase (FCM, Firestore, Auth, Crashlytics), Glide, Timber

Testing: JUnit, Mockito (unit), Espresso (UI)

React Native: Expo, React Navigation, Redux/Context API, Axios, AsyncStorage, Native Modules, CodePush/OTA

Tools & DevOps: Android Studio, Git, GitHub, GitLab, GitHub Actions, Fastlane, Play Store Deployment, Jira, Trello, ClickUp, Agile/Scrum

Mobile & Integrations: Stripe, Google Maps SDK, In-App Subscriptions, Deep Linking, Mobile Video Streaming, ProGuard/R8

EXPERIENCE

Senior Android Developer — eSpark Biz Technologies Feb 2021 – Present

- Sole Android developer for Expiwell, an international ESM/EMA research platform — owning architecture, end-to-end feature delivery, and Play Store releases across 10,000+ active installs while sustaining a 99.85% crash-free rate.
- Built and maintained production Android apps across healthcare, hospitality, social media, and sales domains using Kotlin and Java.
- Implemented MVVM and Clean Architecture with Jetpack Compose, Hilt, Room, Coroutines, RxJava 2, and Paging, establishing clear code conventions and reusable patterns adopted across the team.
- Integrated Retrofit/OkHttp REST APIs and third-party SDKs including Firebase (FCM, Firestore, Auth, Crashlytics), Stripe, and Google Maps SDK across multiple projects.
- Set up CI/CD pipelines with GitHub Actions and Fastlane to automate Play Store deployment, cutting release-cycle time by ~40%.
- Delivered 3–5 sprint features per cycle, coordinating with product and engineering stakeholders across US, EU, and APAC time zones in a fully remote Agile environment.
- Authored unit tests (JUnit, Mockito) and UI tests (Espresso), and mentored junior developers through structured code reviews.

SELECTED PROJECTS

Delivered at eSpark Biz Technologies.

Expiwell — Academic ESM/EMA Survey Platform 2023 – Present

- Delivered Android capabilities for a research platform used across multiple universities, built to ESM/EMA methodology with high data-integrity requirements.

– Engineered a dual notification pipeline (local + FCM push) ensuring reliable survey delivery across time zones, with a <1% missed-notification rate.
– Built an offline-first sync architecture using Room + WorkManager to guarantee survey completion under poor connectivity.

BetterBook — Hotel Booking Application 2022 – 2023

– Developed a cross-platform hotel booking app in React Native (Expo) with location-based search, 10+ filter options, and real-time availability.
– Integrated Stripe with PCI-compliant transaction handling, supporting multiple booking flows and refund scenarios.
– Implemented star ratings, reviews, and booking-history features.

One for All Social — Social Media Management Platform 2022

– Built a unified platform integrating 7 channels: Twitter, Facebook, Instagram, LinkedIn, YouTube, TikTok, and Pinterest.
– Delivered content scheduling, publishing workflows, and analytics dashboards for multi-channel campaign operations.
– Implemented a single unified inbox aggregating messages from all 7 platforms.

Goals — Sales Management Platform 2021 – 2022

– Built a role-based sales platform with granular RBAC across 3 user types (Admin, Manager, Sales Rep).
– Delivered ROI calculators, performance dashboards, and contest/bonus tracking across multiple sales tiers.
– Implemented a 2-tier subscription model with free trials using In-App Purchases.

EDUCATION

Master of Computer Applications (MCA) Jun 2021
Marwadi University, Rajkot, Gujarat
